

## PATIENT NAVIGATION TRAINING PROGRAM

Susan G. Komen is providing a free, 10-week online course to strengthen patient navigation services available to Black women and to support the diversification of the patient navigation workforce.

### WHO SHOULD PARTICIPATE?

Black individuals who are either interested in becoming or already are working in the following ways within the metro areas of Atlanta, GA; St. Louis, MO; Washington, DC; Houston, TX; Dallas, TX; Memphis, TN; Tidewater, VA; Los Angeles, CA; Philadelphia, PA; and Chicago, IL:

- Community Health Workers
- Care Coordinators
- Case Managers
- Social Workers
- Patient Navigators
- Nurse Navigators
- Medical Assistants
- All Patient Facing Roles

Graduates who meet the criteria stated above will receive a gift card upon completion.

### WHAT CAN I EXPECT FROM THE TRAINING PROGRAM?

- This self-paced course is estimated to take approximately 10 hours to complete, and participants will have 10 weeks to complete the material. Additional optional electives and more in-depth breast cancer modules for those seeking to add more breast specific expertise to their navigation experience will be available.
- Core curriculum from George Washington University's Patient Navigation Training Program, which includes:
  - Overview of Patient Navigation
  - Basics of Health Care
  - Basics of Patient Navigation
  - Enhancing Communication
  - Professionalism & Enhancing Practice
  - Breast Cancer 101
- Additional training content developed by Susan G. Komen, including a first-of-its-kind module on navigating racism in the healthcare system.

### WHAT IS PATIENT NAVIGATION?

Patient navigation addresses health disparities by eliminating an individual's barriers to quality care – helping patients effectively navigate a fragmented healthcare system.

### HOW WILL THIS TRAINING BENEFIT ME?

This is more than a training. We aim to build a supportive, interactive learning community to help you develop and or enhance the professional skills, peer network and emotional support you need to best serve your patients and meet the needs of Black women experiencing disparities in breast cancer outcomes.

Graduates will receive a certification of completion, a virtual graduation, a gift card, and ongoing networking and learning opportunities.
